

US EPA ARCHIVE DOCUMENT

ABOUT THIS DOCUMENT

The attached document is an Itemized Cost Summary of EPA's past oversight costs and collections (as of 07/31/13) associated with the Carter Carburetor Superfund Site in St. Louis, Missouri.

In accordance with Section 122(i) of the Comprehensive Environmental Response Compensation and Liability Act, as amended (CERCLA), EPA has reached a pair of proposed administrative settlements with the responsible parties for the compromise of past and projected future oversight costs concerning the site. These settlements – with ACF Industries, Inc., and Carter Building Inc. – include covenants not to sue with the settling parties pursuant to Sections 106 and 107(a) of CERCLA.

A 30-day public comment period for EPA to receive written comments relating to the compromise of costs component of the ACF Industries, Inc. settlement will expire on 08/19/13. EPA will consider all comments and may modify or withdraw its consent from all or part of the cost compromises contained in the settlements if comments received disclose facts or considerations which indicate that the compromise of costs is inappropriate, improper, or inadequate. EPA's response to any comments received will be available for public inspection at the EPA Region 7 office located at 11201 Renner Boulevard, Lenexa, Kansas 66219.
